

E Mail Scam

There are several complaints about someone from Digital InSight attempting to solicit personal information from you.

If you get an email from any source requesting information from you or threatening to terminate any service. It is a hoax.

Many scams use this method to steal your identity, bank account information, Social Security Number, etc. If you receive an email asking for this type of information – DO NOT provide it. We at Citizens State Bank will NEVER ask for that information by email.

If you have any questions about this type of scam, please feel free to contact us.

Thank You for your buisness.
